STUV 95 mm

STUV: V05401400

STUV 95 mm is a high-quality stainless steel component. It is designed for use in various applications where high strength and corrosion resistance are required. The component is made of 316L stainless steel and is available in a length of 95 mm. It features a threaded end and a smooth end. The component is suitable for use in marine environments, food processing, and pharmaceutical applications. It is also suitable for use in high-temperature environments. The component is available in a length of 95 mm. It features a threaded end and a smooth end. The component is suitable for use in marine environments, food processing, and pharmaceutical applications. It is also suitable for use in high-temperature environments.

STUV 95 mm

Material	316L stainless steel
Length	95 mm
Thread	M8
Surface finish	Polished
Temperature range	360°
Weight	0.12 kg
Dimensions	95 x 13 x 13 mm
Material	316L stainless steel
Weight	0.12 kg
