PYLOCX lock for safes

Article No.: 1-MSV-VL-2W

1-lock system for safes.

Properties

- System with PYLOCX control module incl. V-Link
- Opening with one-time code or fixed PIN
- Readable opening log with up to 10,000 entries
- VdS certified
- 1-lock system
- Temperature range -20°C - 50°C
- Suitable for burglar alarm systems

Functional description

After PYKEY and the control module have signalled an opening, the PL2044 motor lock opens or closes the motor bolt. In de-energised operation, the PYKEY supplies the energy for opening and keyed locking.
