Electric rotary latch lock 12V

Article No.: AC1000

PYLOCX Electric rotary latch lock 12V

Properties

- Compatible with all PYLOCX control modules
- For indoor and outdoor use
- Up to 500 kg tensile strength
- Various padlocks available

Functional description

After PYKEY and the control module have signalled that the door is open, the rotary latch lock opens. In de-energised operation, PYKEY supplies the energy for opening.
