# Cold room lock

Article No.: EASYLOX

With EASYLOX, STUV engineers have developed and designed a modular snap-in locking system for refrigeration and deep-freeze doors that can be individually configured. Elegant stainless steel look or classic black? The modular system makes it easy to combine different decorative panels and interior handle variants.

## Properties

- Available in two colour variants
- Optional: OEM version with customer logo on the cover plate
- Variable latch, backset 10 mm adjustable
- Luminescent function of the covering cap on the inside handle (for emergency opening)
- For door thicknesses from 45 to 165 mm
- Operating temperature range from -30°C to +80°C
- Lockable with wafer cylinder with two keys (nickel-plated steel), different locking 1 – 10 or in blind version without cylinder
- Cut-out identical to STUV VARILOX locking system
- EN 179 tested
- Made of particularly robust, durable and resistant materials: stainless steel & glass fibre reinforced composite materials

## Functional description

Open, close – as intuitive and ergonomically designed as a locking system should be. Simply pull or push in the direction of the door opening to release the mechanism.

## Places of use

- Cold room manufacturer
- Refrigerated vehicles

- Cooling fitting trade
- Metal/door construction
- Refrigerator door manufacturer

## Technical specifications

| | |
|---|---|
| Material | Composite materials |
| Surface | Coloured |
| Colour | RAL 9.005 |
| Standards | EN 179 tested |
| Temperature range | -30°C to +80°C |
| Locking function | Snap |
| Locking type | Cylinder |
| Multi-point locking system | No |
| Door type | Hinged doors |
| Backset [mm] | 80 |
| Door thickness [mm] | 45 to 165 |
| Door version | Right-hand version / Left-hand version |
