HSL Double Bit Retrofit with Double Bolts - comparable to CHUBB®

Article No.: HSL C821X

The HSL-C821X is a modular double-bolt lock system that allows you to replace previous Chubb® locks with a modern high-security lock in just a few minutes. No door modifications are required. STUV offers locks with the exact same dimensions as your existing Chubb® locks.

Properties

- The lock can be ordered with three different locking options: MK1 (night lock – double action), MK2 (dual-key system), or MK3 (single action).

Functional description

Double-bolt lock with a single-turn bolt throw. Designed as a replacement for previous locks from other manufacturers. · Direct replacement for previous third-party models · Stainless steel bolts with a 37 mm throw · Easy operation with an HSL double-bit key · Locking mechanism can be reconfigured without a reconfiguration key
