Strike for press lever lock

Article No.: PHV 300

The attached, single-sided pressing lever lock system made of investment casting stainless steel presses smaller doors and hatches into the door seal all around with its worm gear in conjunction with a pressure bevel in the strike. The robust system with its heat-insulating coating also works in extreme environments.

Properties

- Stainless steel investment casting, grinded and blasted
- For right-hand or left-hand hinge
- With plastic insert
- Suitable for hot appliances
- Starter height 56 and 74 mm

Places of use

- Oven manufacturer
- Cooking and smoking techniques
- Cold room manufacturer
- Refrigerator door manufacturer
- Insulated door manufacturer

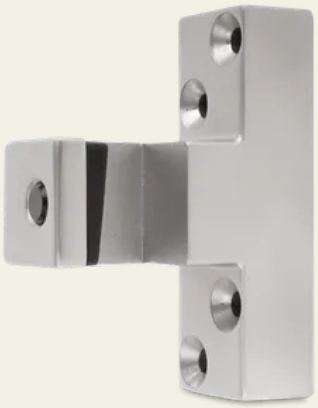

Technical specifications

Material	Stainless steel
Surface	Grinded and blasted
