PYKEY mobile electronic key

Article No.: PL1011

The PYKEY is used to enter the PYCODE. The PYKEY provides power for up to 700 openings and is rechargeable via USB.

Properties

- Opening options:
- One-time code
- Fixed PIN
- Powerless
- With fixed power supply to the lock

Functional description

After entering the code, the PYKEY is placed on the corresponding contact point or device. The code is transmitted and, if necessary, power is supplied to the device to open it.

Technical specifications
