Data sheet

PYLOCX contact points

Article No.: PL203X

The contact point serves as an interface between PYKEY and the control module. The integrated magnet automatically centres the PYKEY each time it is placed on the control module. Corrosion-resistant and available with different cable lengths and threaded rods for assembly, as well as an NFC contact point.

Properties

— Compatible with all PYLOCX control modules and PYKEYS

— Suitable for operation without power supply

— Cable lengths from 0.8 m to 12 m

— Can be used indoors and outdoors

— Model for NFC opening available

Functional description

The contact point transmits the PYKEY code to the connected control module to trigger opening. As the only external component of the system, the contact point offers no points of attack for tampering of any kind and is permanently installed.

Technical specifications

Material	Stainless steel AISI304/AISI316, aluminium (NFC contact point)
Surface	NFC contact point: Hard anodised
Colour	Silver
Standards	VdS 2.344:2.014-07, VdS 2.369:2.022-09, EN 1.300:2.013-11, VdS 2.110:2.017-09, VdS 2.203:2.001-03, VdS 2.119:2.003-12, VdS 2.271:2.007-12
