

PYLOCX® locking mechanism for KRUSE key depot - inner diameter 46mm

Article No.: PL405X

PYLOCX® locking insert for KRUSE key depot - inner diameter 46mm

Properties

- PYLOCX key depot in an alternative version
- Dimensions of locking insert: Ø 46mm
- Compatible with KRUSE wall safe tubes
- No-electricity operation
- Opening by one-time code or fixed PIN
- Readable opening protocol of up to 10,000 entries
- Suitable for indoor and outdoor use

Functional description

After entering the code, the PYKEY® is placed on the contact point of the device. The code is transmitted and the device is supplied with power for opening. The locking insert can be pulled out manually using the magnetic force of the PYKEY®. When the locking insert is pushed back in, it locks automatically.
