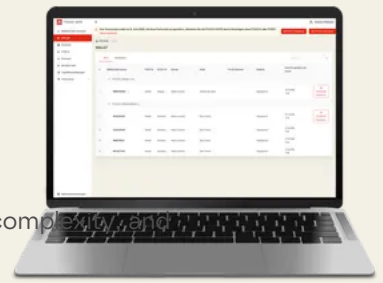
PYLOCX Suite Management Software

Article No.: PYLOCX Suite

The flexible management software for the PYLOCX®
smart access control system.



Properties

- Easily and flexibly grant or revoke time-limited access permissions, reduce complexity, and maintain full control and transparency over every entry point at all times.

Functional description

With the PYLOCX® Suite, our customers can control and centrally manage PYLOCX® components in a flexible and user-friendly manner. The software combines the management of people,
service providers, locations, and locking components with intelligent access control via
one-time codes, fixed codes, or “Access on Key.” With PYLOCX, users and properties can be organized quickly, securely, and across multiple locations—ensuring controlled
access even in extreme situations.
