HSL end ring

Article No.: RB 500

End rings are used in conjunction with HSL key guides. They precisely cover the gap between the key guide and the door panel, ensuring a clean, form-fit seal.

Properties

- For HSL key escutcheons with a diameter of 60 mm
- For profile cylinder escutcheons with a diameter of 60 mm
- With 4 lugs for fixing

Functional description

HSL end caps are slid over the keyway or key rosette and securely fastened to the door panel using four integrated mounting tabs. They provide precise and reliable coverage of the gap between the keyway and the door panel, ensuring a form-fit, visually clean finish. Thanks to their precise fit, the end caps contribute to a high-quality overall appearance and facilitate the proper assembly of the HSL key guide.

Technical specifications

Material	stainless steel
Surface	dull
Assembly	Clamp Mounting
Dimensions LxWxH	70 x 70 x 15
Weight [kg]	0.008
