

## SLIMFLEX narrow cold room corner hinge, up to 120kg load capacity

Article No.: SLIMFLEX.EDG

---

The slimline stainless steel hinge in the SLIMFLEX series is ideal for use on light and medium-weight flush doors or doors with offsets.

### Properties

- Stainless steel investment casting, grinded and blasted
- Load capacity of up to 120 kg with two hinges
- Modern design for high-quality door design
- Can be used for right- and left-hand versions
- Different colour combinations
- Adjustable in three shafts, rising / non rising
- Maximum opening angle of 180°
- For doors with an offset of 35 mm or more
- Reliable protection against dismantling
- Modular design: single components can be replaced

### Functional description

The modern SLIMFLEX corner hinge made of AISI304 stainless steel combines functional strength with an elegant look. Its timeless matt design fits into any environment, while reliably supporting doors with a load capacity of up to 120 kg. The two-colour design with black caps gives the hinge an elegant accent. Thanks to its modular system and versatile adjustment options, the SLIMFLEX hinge offers a high degree of customisability to meet individual requirements. The 3D adjustability of the corner hinge and the 2D adjustability of the flap hinge enable precise customisation even in complex installation locations.
