Lock box for mechanical HSL/SL food hatch locks

Article No.: ST 200

Stainless steel lock box for purely mechanical HSL / SL locks of the 200 series

Functional description

The lock box for inspection flaps is supplied directly to the door manufacturer by STUV and is welded into the door leaf. This simplifies the installation and removal of the locks on the construction site or for replacement purposes. In addition, the locks are correctly aligned in the door leaf. Stainless steel lock box for mechanical HSL / SL inspection locks of the 200 series.
