

Lock box for mechanical multi-point locking system

Article No.: ST 400

Lock box made of stainless steel to accommodate mechanical HSL multi-point locks from the 402 series (main lock)

Properties

- For mechanical HSL high-security multi-point locks
- Completely made of stainless steel
- For welding
- Functional element for main lock

Functional description

The door manufacturer receives the lock box directly from STUV and welds it into the door leaf. This simplifies the installation and removal of the locks on site or for replacement purposes. In addition, the locks are correctly aligned in the door leaf. Multi-point locks have a lock box for the main lock and two lock boxes for the additional locks. All three lock boxes are connected to each other via flat rods and form a functional unit.
