

HSL mounting frame for HSL C17X

Article No.: ST 905

The mounting frame for the HSL C175 and C171 locks is used for surface mounting. The HSL C175 and C171 locks can be installed either flush with the door leaf or as surface-mounted box locks. The latter variant requires the mounting frame.

Properties

- Designed to fit perfectly with HSL C175 and C171 locks
- For surface mounting

Functional description

The mounting frame is fastened with tamper-proof stainless steel security screws. The security features, precise fit and corrosion-resistant materials ensure that high-security locks type HSL C175 and C171 can deliver their full potential.
