

## HSL mounting frame for HSL C17X

Article No.: ST 905

---

The mounting frame for the HSL C175 and C171 locks is inserted as part of the surface-mounted installation. The HSL C175 and C171 locks can be installed either flush with the door leaf or as a surface-mounted box lock. The latter variant requires the mounting frame.

### Properties

- designed for use with HSL C175 and C171 locks
- for surface mounting

### Functional description

The mounting frame is fastened using tamper-proof security screws made of stainless steel. The security features, precise installation and corrosion-resistant materials ensure that HSL C175 and C171 high-security locks can fulfil their full potential.
