

## Screw-on folding ring shell handles

Article No.: TÛ3400

The hinged ring handles are used to operate doors in gymnasiums or sports halls, for example. They are recessed into the door leaf and do not protrude. This minimises the risk of injury.

### Properties

- Pull and aluminium push button
- Swiss round cylinder or BB on request
- Minimum distance for profile cylinder hole 55 mm
- Version also available in steel or stainless steel
- Special colours on request

### Functional description

These handles are made of aluminium and have 4 visible screws.
