

Folding ring handles, screw-on

Article No.: TÛ3500

The folding ring handles are used, for example, in gymnasiums or sports halls to operate doors. They are recessed into the door leaf and do not protrude. This minimises the risk of injury.

Properties

- Steel pull and aluminium folding ring
- 7 mm pin version on request
- Folding ring handle fixed rotatable
- 70 mm projection pin on request
- Shell and handle in aluminium

Functional description

These handles are available in aluminium or steel. They are visible from four sides.
