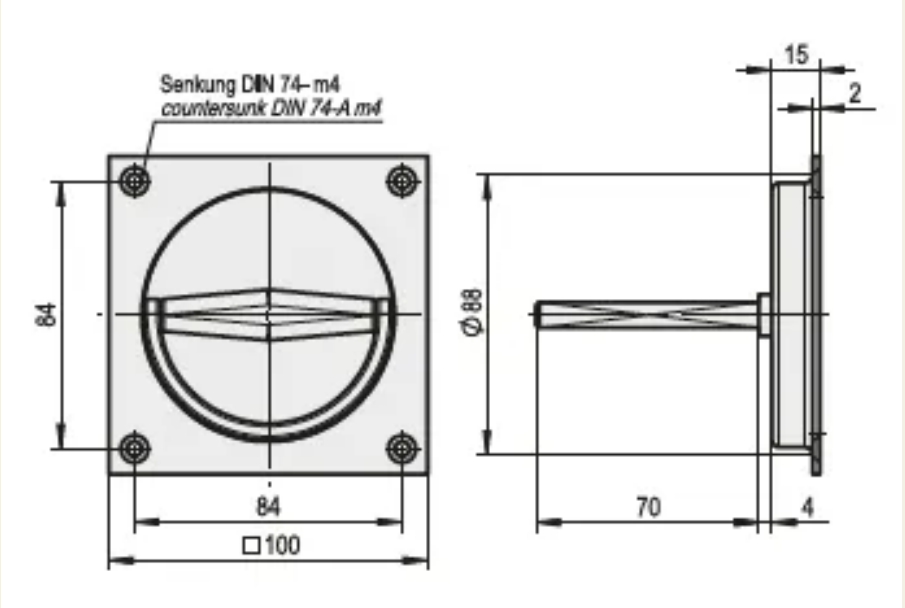
Folding ring handles, screw-on

Article No.: TÜ3700

The folding ring handles are used, for example, in gymnasiums or sports halls to operate doors. They are recessed into the door leaf and do not protrude. This minimises the risk of injury.

Properties

- Steel/aluminium = steel pull and aluminium folding ring Optional aluminium = aluminium pull and folding ring

Functional description


These handles are available in aluminium or steel. They are visible from four sides.
