

Mortise lock with change

Article No.: TS 100

The mortise locks are designed for metal tubular frame doors. Due to their small dimensions, they are often used in narrow steel doors or aluminium doors.

Properties

- 1-turn bolt throw 15mm
- Forend edged, steel zinc-plated
- 8mm square nut
- Latch and deadbolt flush or with 5mm projection possible
- Forend in stainless steel on request

Functional description

These deadbolt slam-locks have a changeover mechanism. A profile cylinder can be used to retract the latch as well as advance and withdraw the deadbolt. The locks are equipped with an 8 mm square spindle.

Technical data

Material	Steel
Surface	Zinc-plated
Colour	Silver
Distance	92 mm
Nut [mm]	8

Technical data

Faceplate dimension [mm]	245x24x3
Forend material	Steel zinc-plated
Material deadbolt	Zinc
Lock housing material	Steel zinc-plated
bolt throw mm	15
Distance [mm]	92
