Mortise lock with changeover, 2 profile cylinders

Article No.: TS 150

The mortise locks with double profile cylinder are designed for metal tubular frame doors. They are used in steel or aluminium doors. They offer the option of being driven by two profile cylinders.

Properties

- Forend, stainless steel
- Removal: PZ1 78 mm, PZ2 126 mm
- Bolt throw 1 turn 12 mm
- Matching slide rosettes

Functional description

These deadbolt slam-lock locks can be equipped with two profile cylinders, e.g. to create different locking circuits. They are also equipped with a changeover mechanism so that the deadbolt can be locked and unlocked and the latch can be retracted via the profile cylinders.
