Mortise lock, heavy version

Article No.: TS250

This solid mortise lock is designed for special doors. Areas of application include particularly heavy solid doors, increased use or harsh environments.

Properties

- Forend, zinc-plated steel
- Square nut 10 mm
- Version with anti-panic function D possible

Functional description

These deadbolt slam-locks have a changeover mechanism. A profile cylinder allows the deadbolt to be locked and withdrawn and the latch to be retracted. The locks are equipped with a 10 mm square nut. The anti-panic function D is available as an alternative to a changeover mechanism.

Technical specifications
