

Mortise lock, heavy version

Article No.: TS250

This solid mortise lock has been developed for special doors. Areas of application include particularly heavy full-leaf doors, increased utilisation or a harsh environment.

Properties

- Forend with knuckle, zinc-plated steel
- 10mm square nut
- Version with anti-panic function D possible

Functional description

These deadbolt slam-locks have a changeover mechanism. A profile cylinder can be used to retract the latch as well as advance and withdraw the deadbolt. The locks are equipped with a 10 mm square follower. The anti-panic function D is available as an alternative to a change.

Technical data

Material	Steel
Surface	Zinc-plated
Colour	Silver
Dimensions LxWxH	212x105x17
Backset	65 mm
Distance	97 mm
