

Mortise lock fire/smoke protection

Article No.: TS300

The mortise locks are designed for full-leaf doors made of wood or metal. They are approved for fire and smoke protection doors.

Properties

- Round forend, zinc-plated steel
- For single-leaf fire protection closures
- 2-throw bolt throw of 22 mm
- Latch, deadbolt without projection
- Version with stainless steel forend available on request
- Corrosion-resistant interior parts for wet rooms or chemical plants available on request

Functional description

These deadbolt slam-locks have a changeover mechanism. A profile cylinder can be used to retract the latch as well as advance and withdraw the deadbolt. The locks are equipped with a 9 mm square follower.
