Plug-in panic lock, 2 profile cylinders, fire/smoke protection

Article No.: TS400

The mortise locks with double profile cylinder are designed for solid doors. They are used in wooden or steel doors. They offer the option of being driven by two profile cylinders. The locks are approved for fire and smoke protection doors.

Functional description

These deadbolt slam-lock locks can be fitted with two profile cylinders, e.g. to create different locking circuits. They are available with either anti-panic function E or D. The locks are equipped with a 9 mm square spindle.
