

Insert panic lock, 2 profile cylinders, fire/smoke protection

Article No.: TS400

The mortise locks with double profile cylinder are designed for solid leaf doors. They are used in timber or steel doors. They can be operated by two profile cylinders. The locks are approved for fire and smoke protection doors.

Functional description

These deadbolt slam-locks can be fitted with two profile cylinders, e.g. to realise different locking circuits. They are optionally available with anti-panic function E or D. The locks are equipped with a 9 mm square spindle.
