# Surface-mounted box lock with deadbolt

Article No.: TV100

The screw-on locks are designed for a variety of applications. Due to their small dimensions, they are often used on furniture doors or garden gates.

## Properties

- Zinc-plated steel
- Key can be removed when lock is open, optionally non-removable

## Functional description

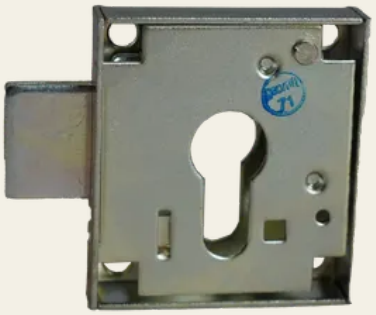

These deadbolt locks are screwed onto the door leaf. They can be locked to the left, right or upwards. In another version, two profile cylinders can be fitted for different locking circuits.

## Technical specifications
