

Mortise lock with change, 3 profile cylinders

Article No.: V01300281/2

The mortise locks with triple profile cylinder are designed for solid leaf doors. They are used in timber or steel doors. They can be operated by three profile cylinders.

Properties

- Round forend, zinc-plated steel
- 1-turn bolt throw 15 mm
- No latch or deadbolt projection
- With special screw for cylinder fastening
- Forend in stainless steel available on request

Functional description

These deadbolt slam-locks can be fitted with three profile cylinders, e.g. to realise different locking circuits. They are also equipped with a changeover mechanism so that the deadbolt can be locked forwards and backwards via the profile cylinders and the latch can also be retracted. The locks are equipped with a 9 mm square spindle.

Technical data

Material	Steel
Surface	Zinc-plated
Colour	Silver
Dimensions LxWxH	165x131x14
Backset	72 mm

Technical data

Distance	32/33/33 mm
