Cylinder quarter turn with chrome knob and 2 keys

Article No.: V02607100

The quarter turn with T-knob is ideal as a locking solution for insert parts on cabinet doors or gates. It offers protection and reliable locking in demanding environments. Thanks to its compact design and wide range of applications, it is ideal for industrial applications where safety and functionality are paramount.

Properties

- Ergonomic design for a secure grip
- Can be used on the right-hand or left-hand side
- Increased security thanks to round cylinder
- Includes 2 keys
- Versatile application options (thanks to different cams)

Functional description

Quarter turn locks usually consist of a housing, an insert and a cam. Whether standard, with triangular, square or pin inserts,
with IP protection against dust and water, or with special features to meet your specific requirements
