Mammut quarter turn, double bit 5 mm

Article No.: V03700830

MAMMUT increases your flexibility and reduces your storage costs. This compression latch was developed to meet the special requirements of industry in terms of function and design.

Functional description

Quarter turn locks with compression provide a dual function: they securely lock the housing with a cam and simultaneously pull the door or flap tightly against the seal. This provides optimum protection for the housing against the ingress of dust and moisture. These quarter turn locks are particularly suitable for applications where a high level of sealing and reliable protection of the housing interior is required, especially in harsh environmental conditions.

Technical specifications

Material	Zinc die
Surface	Chrome-plated
Colour	Silver
Insert	Double bit with 5 mm pin
Assembly	Partially assembled
Feature	With compression
Stroke [mm]	5
Installation opening [mm]	□ 20.2 x Ø 22.2

Technical specifications

Length of housing [mm]	28
Housing diameter [mm]	Ø 28
