

Mammoth 8 mm triangular quarter turn

Article No.: V03700850

MAMMUT increases your flexibility and reduces your storage costs. This compression latch was developed to fulfil the special demands of the industry in terms of function and design.

Functional description

Quarter turns with compression provide a dual function: they lock the housing securely with a cam and at the same time pull the door or flap firmly against the seal. This optimally protects the housing against the ingress of dust and moisture. These quarter turns are particularly suitable for applications where a high level of sealing and reliable protection of the inside of the enclosure is required, especially in harsh environmental conditions.

Technical data

Material	Zinc die
Surface	Chrome-plated
Colour	Silver
Installation opening	∅20.2 mm x ∅22.2 mm
Case diameter	∅ 28 mm
Length of housing	28 mm
Insert	Triangular 8mm
Assembly	Partially assembled

Technical data

Feature	With compression
WebGL	https://api.sts.sch-server.de/sync/renderings/03.700.850/webGL/03.700.850.gltf
Installation opening [mm]	∅ 20.2 x ∅ 22.2
Housing diameter [mm]	∅ 28
Length of housing [mm]	28
