Round rod with PVC roller, zinc-plated

Article No.: V04507990

Round rods with PVC rollers combine stability and versatility for a wide range of applications. Thanks to their robust construction and high-quality PVC rollers, they are ideal for insert parts in areas that require low-friction and reliable movement, such as in safety and industrial systems.

Technical specifications

Material	Steel
Surface	Zinc-plated
Colour	Silver
Insert	Via rod control
Feature	With PVC roller
Dimensions LxWxH	L=600 mm, Ø8 mm
Offset [mm]	Yes
