

Hinge polyamide, black, 40x40

Article No.: V05405040

This corner hinge is a popular component, particularly in machine and plant engineering, thanks to its stability, aesthetics and functionality.

The plastic version has a 30% glass fibre content, which makes it particularly durable and safe. Its low weight is a major advantage over the metal versions. A true all-rounder!

**Properties**

- Timeless design
- Universal application
- Right-hand version / left-hand version
- Opening angle 180 °
- Other sizes and materials available on request

**Technical specifications**
