

Sealing sleeve with clamping range 2.0 EPDM

Article No.: V07800750

The push-on gasket profile is made of black EPDM and therefore offers a high temperature spread. An embedded steel spring core covers a clamping range of 2.0 mm. Thanks to the small bending radii, the product is versatile in use.

Properties

- High temperature spread (delta: 100°C)
- Individual lengths for increased demand on request
- Bending radii: A=30, B=40, C=30, D=60

Functional description

Sealing profiles are easy to install and ensure reliable sealing in a wide range of applications.

Technical data

Material	EPDM
Surface	Matt
Colour	Black
Dimensions LxWxH	A= 30 mm, B= 40 mm, C= 30 mm, D= 60 mm
Standards	DIN EN 1.514-1
Fixing type	With clamping strap
Temperature range	-60°C - +160°C

Technical data

Shore hardness 30 Shore

Dimensions [mm] A= 30 ; B= 40 ; C= 30 ; D= 60
