

Spring-loaded ball catch, nickel-plated brass, size 1

Article No.: V37704100

The spring-loaded ball is an ideal addition for doors and access panels in the cabinet sector or in mechanical engineering and ensures a secure and stable lever for bolted components by means of a simple locking mechanism with spring-loaded balls. Various sizes are available in our range.

Properties

- High aesthetics (not visible from the outside)
- Reliable and secure locking of doors, flaps and drawers
