- Latching function at 120° (rising version only)
- For doors with an offset of 49 mm or more, centre of rotation 29 mm
- Lift-off version, with anti-lift-out device (secured second mounting)
- Covering caps with security

Functional description

The Varioflex corner hinge made of stainless steel is ideal for insert parts on heavy doors or doors in very aggressive environments. By using investment casting in stainless steel, we achieve load-bearing capacities of up to 160 kg with increased corrosion resistance. In addition to design elements, you can also choose other functions from the modular system.
